IMPORT SERVICES

With our DHL Express Worldwide Import product, you can import shipments from over 220 countries and territories in the world. This is more than any other express delivery company can offer. What's more, customers in, say, the USA can order an import from China not just to the USA, but to other destinations as well. We call this a third country shipment.

There is no need for local brokers or forwarders to get involved in any part of the process. You are in full control, and able to manage all aspects of your imports in a very simple way.

If you need a faster delivery, our DHL Express 12:00 and DHL Express 9:00 services are available for import as well as our DHL Economy Select Import service for less urgent shipments throughout Europe. You can order an import from another country, to be delivered to your country or any other destination, by using our dedicated electronic shipping solution for imports. You will have one account number, one invoice in a single currency and a fixed price that means you know exactly what you will pay.

DOMESTIC SERVICES

If you want to ship documents or goods within your own country, we can offer our Time Definite Domestic products with delivery time guarantees of 12:00, 10:30, 9:00 or the end of the next possible business day.

Duties and Taxes Paid

[View charges](#)

Charges apply whenever the shipper requests that duties, taxes or other regulatory fees be billed outside of the destination country.

Dedicated Pickup and Delivery

[View charges](#)

If your business needs a dedicated vehicle to collect or deliver unusual shipments, or a pickup or delivery outside normal business hours, we can arrange this.

Saturday Delivery

[View charges](#)

We offer Saturday delivery services to key cities in more than 70 countries.

Shipment Insurance

[View charges](#)

[View charges](#)

[View charges](#)

This service is for customers who require a paper invoice where e-billing is the agreed standard. This service provides flexibility for a different invoicing method than what is already agreed.

GoGreen Climate Neutral

[View charges](#)

This service is for customers who need a reliable method to calculate their annual carbon emissions at a shipment level and subsequently offset these emissions through approved environmental programs. The whole process is verified annually by an independent body accredited by the Société Générale de Surveillance (SGS). DHL can also provide reports for either a high level estimate or a detailed carbon footprint.

Packaging

[View charges](#)

We offer a range of high-quality DHL-branded packaging items. One-off flyers, envelopes and smaller boxes are free of charge. Larger boxes and tubes can be ordered through Customer Services and will be provided by the courier at time of pickup, a charge applies.

Change of Billing

[View charges](#)

This applies when a customer requests a change of defined billing information on an already issued invoice, and which will result in a reissuing of the invoice and, in case of an account change, crediting of the old account and debiting of the new.

Neutral Delivery

[View charges](#)

This service allows for the delivery of non-document shipments, without any value of the product being shared or exposed to the receiver, since the commercial invoice is removed prior to delivery.

Preparing Your Shipment

Packaging Your Shipment

Paying for Your Shipment

PREPARING YOUR SHIPMENT: AS EASY AS 1-2-3

1 Shipment weight

Please weigh and measure your shipment. If you are sending a large but lightweight shipment, where its volumetric (dimensional) weight exceeds its actual weight, the cost of the shipment is calculated on the space your consignment takes up on the aircraft. This is a standard IATA method. To calculate the volumetric weight of your shipment, simply multiply the length by height by width in centimeters, then divide the total sum by 5,000 for each piece in the shipment. Any piece in the shipment may be re-weighed and/or re-measured by DHL to confirm this calculation.

2 Documentation required: waybill

All shipments sent with DHL Express need to have a fully completed DHL waybill or label securely attached to each piece. This will enable the successful movement of your shipment through the DHL network. Each waybill or label is individually numbered to allow you to track your shipment from collection through to delivery. Your shipment may also need to be accompanied by customs documentation, such as a commercial or proforma invoice, as well as additional paperwork depending on the contents and value of the shipment and the country you are sending to.

3 Documentation required: invoice

A commercial or proforma invoice is required when sending non-document shipments to countries and territories outside your origin country or customs union. This is essentially a declaration containing all the details of a transaction and is used by customs authorities to assess if duties or taxes are payable. A commercial invoice is used when goods are part of a commercial transaction or intended for resale. A proforma invoice is used when sending goods of no commercial value (for example, when sending samples).

PREPARING YOUR SHIPMENT

Your invoice will require the following details:

1 BANK DETAILS

These are the bank details that will be used for the transaction between the seller and buyer. These details are not required for non-commercial/proforma invoices.

2 DESCRIPTION

Generic or broad descriptions are no longer permitted and are likely to cause delays. Descriptions should include the items, how many there are, what they are made of, and what they will be used for. For example, describing items as 'samples', 'parts' or 'spares' is not acceptable for customs classification, safety and security reasons.

3 COMMODITY CODE

This is the product identification code used by the exporting country to classify the goods to be exported. It assists clearance and avoids delays.

4 COUNTRY OF MANUFACTURE/ORIGIN

This relates to the place of manufacture, not the country of export. If items are manufactured in more than one country, please list the origins.

5 TOTAL DECLARED VALUE

This is the total value of the transaction for customs purposes based on the Incoterm selected. The total declared value should include freight and insurance charges if the seller is responsible for these two elements.

6 TYPE OF EXPORT

The options are: (1) Permanent; (2) Temporary; and (3) Repair & Return.

Full description of goods	Commodity code	Item quantity	Unit value [Currency]	Subtotal value [Currency]	Net weight	Country of manufacture/origin

PACKAGING YOUR SHIPMENT

To ensure that your shipments travel safely and securely through the DHL Express global network, it is important that they are packaged and labeled correctly.

Packaging guidelines

- If you are re-using envelopes or boxes, please ensure that old labels and markings are removed
- Securely fix a waybill to each piece in your shipment. The waybill can be thought of as the shipment's airline ticket and it will delay delivery if it becomes separated from your shipment
- The barcodes on the waybill are scanned at numerous points during your shipment's journey. Please ensure the barcode is flat and not covered by tape, shrinkwrap or strapping
- Place a waybill on the top or side of each piece in your shipment and please ensure it does not overlap the corners or edges of boxes
- Use adequate protective wrapping for fragile or delicate items and ensure they are packed as far away as possible from the corners of boxes
- To prevent injury to our employees, please pay special attention to the packaging of sharp items. There should not be any possibility of the contents piercing the packaging
- Any individual pieces over 70kg should be placed on a pallet. If you are sending a multi-piece shipment, it is not necessary to place the individual pieces on a pallet unless they exceed 70kg. For example, a shipment comprising four 25kg pieces does not have to be placed on a pallet
